

**Can
you
prove
Allah
Exists?**

**The More I Think
The More Confused I Get**

Are these the reasons?

- My parents tell me Allah exists
- Quran says Allah exists
- My teachers tell me Allah exists
- My Muslim friends believe Allah exists

It's a puzzle, right?

- I can't see Allah
- I can't chat to Allah
- I can't hear Allah
- I can't touch Allah
- I can't contact Allah
- I'm not sure if he is happy or upset with me

**Just once wouldn't you love for
someone to simply show you the
evidence for God's existence?**

Using Maths to proof Allah Exists

Luck! (By Coincidence)

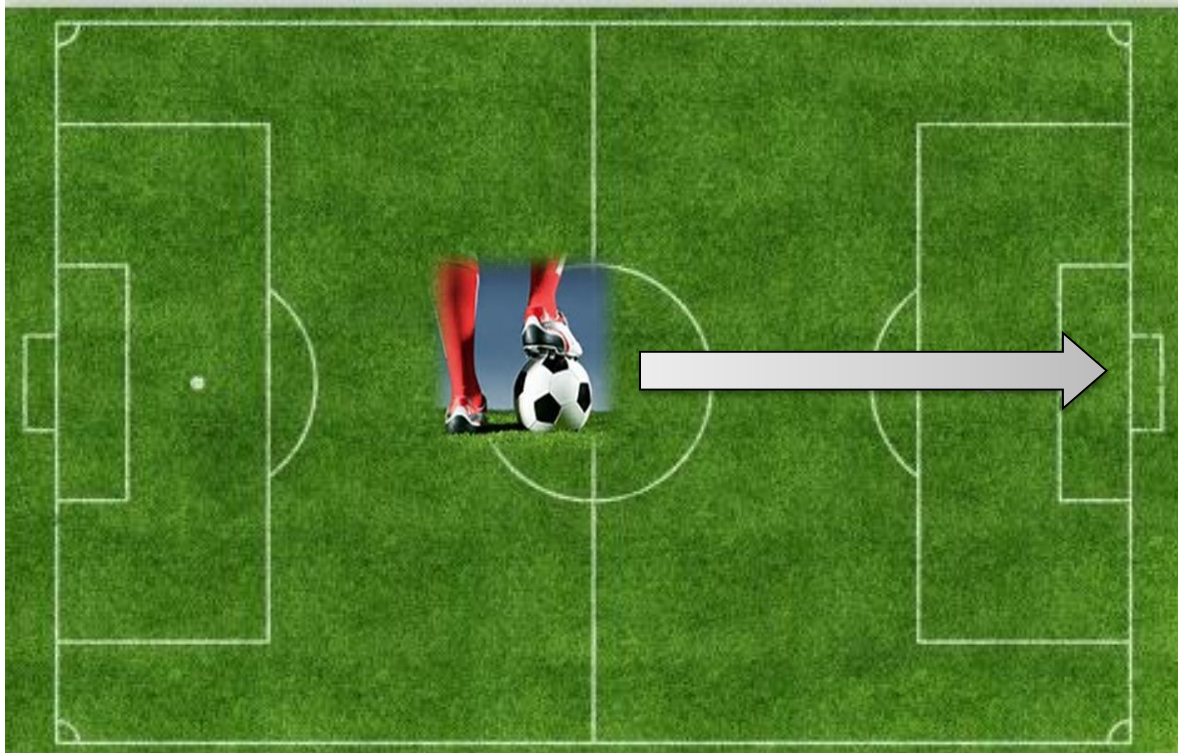

- 1st Goal= 50%
- 2nd Goal=25%
- 3rd Goad= 12.5%
- 4th Goal = 6.25%
- 5th Goal= 3.12%
- 6th Goal= 1.6%

What happens is the more goals I score the logical reason increases and coincidence decreases and you would begin to think I am skilled footballer.

Skill (for a logical reason)

- 1st Goal= 50%
- 2nd Goal=75%
- 3rd Goad= 87.5%
- 4th Goal = 93.8%
- 5th Goal= 96.9%
- 6th Goal= 98.5%

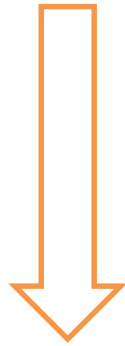

Using Maths to proof Allah Exists

A tree is planted and what happens is every summer you see the young tree grow leaves and grow taller. The logical reason increases and coincidence decreases and you begin to think there is skill and knowledge behind this.

**Green every summer by Luck!
(By Coincidence)**

1st Summer= 50%
2nd Summer=25%
3rd Summer= 12.5%
4th Summer = 6.25%
5th Summer= 3.12%
6th Summer= 1.6%

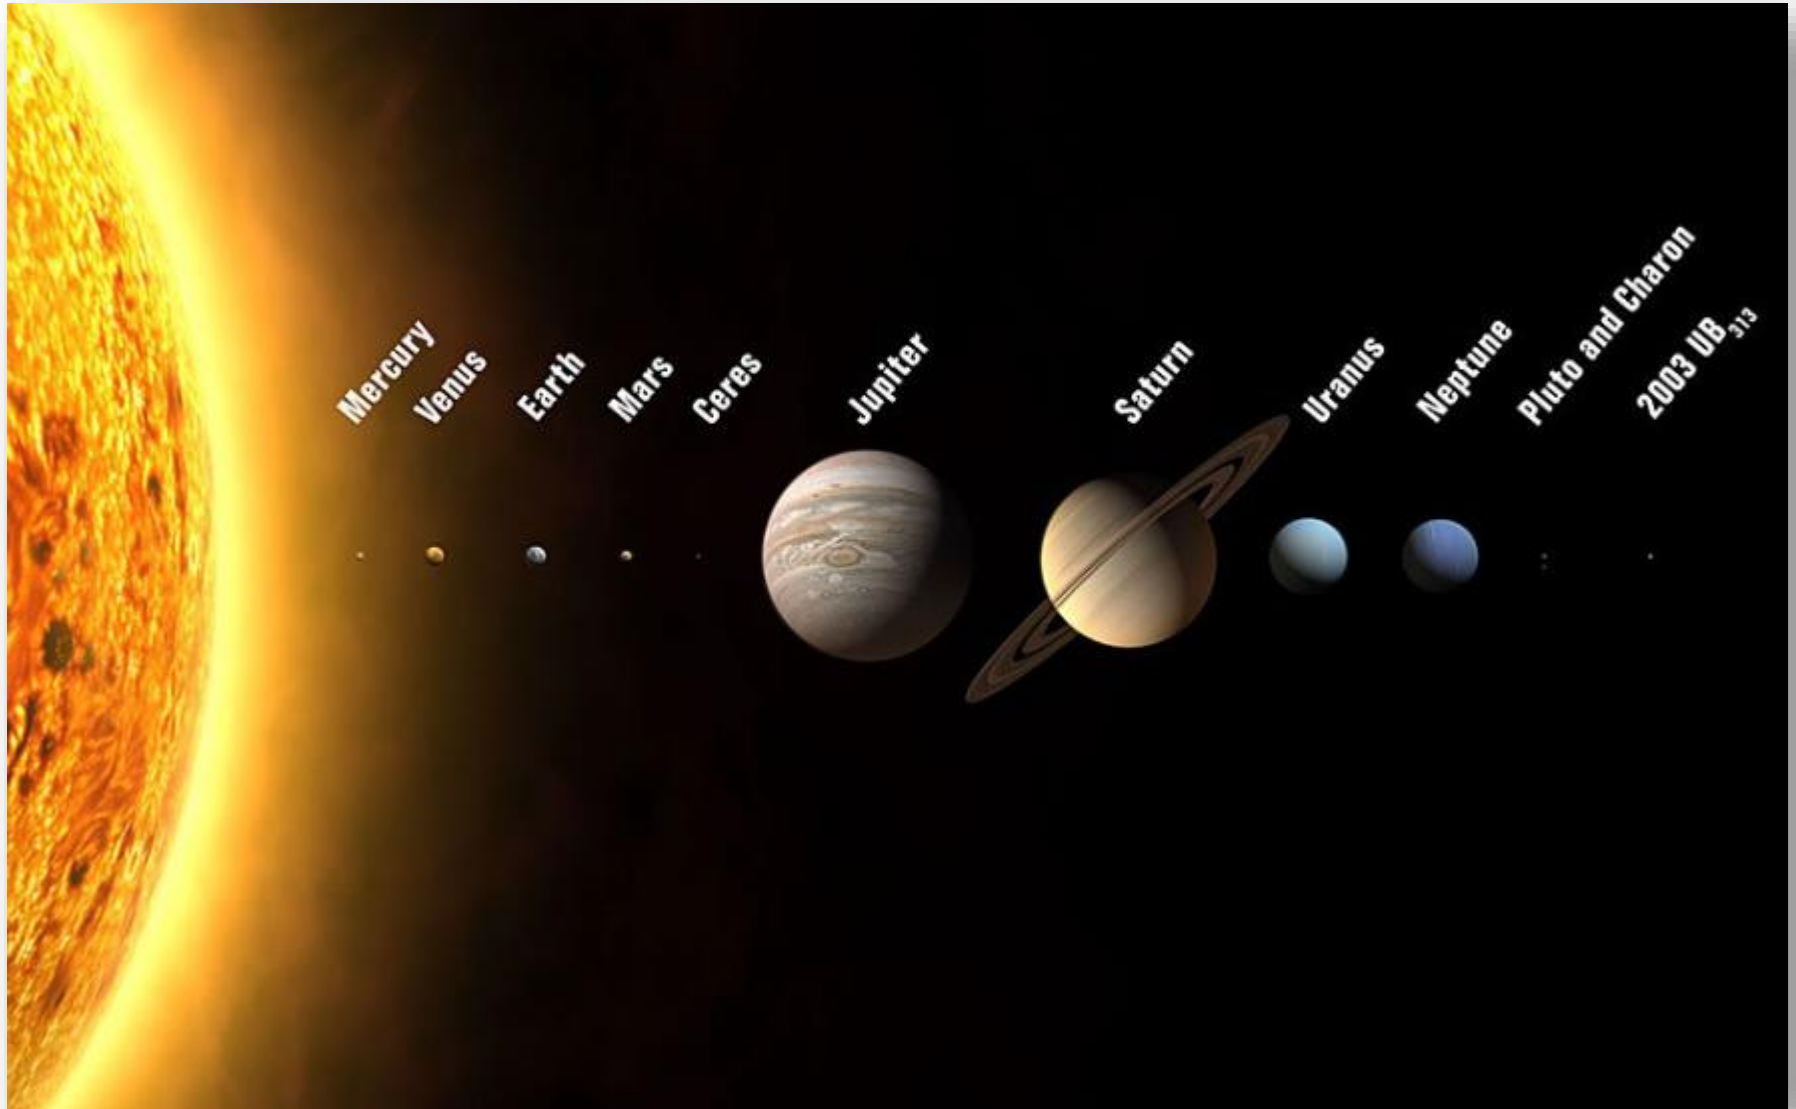

**Green every summer

Our Solar System

The universe operates by uniform laws of nature. Why does it?

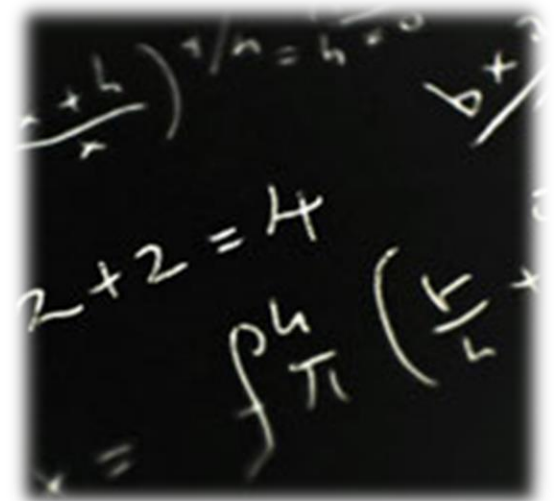

By **logical reason** we are certain day after day:

- Gravity remains consistent,
- The earth rotates in the same 24 hours,
- The speed of light doesn't change -- on earth or in galaxies far from us.

How is it that we can identify laws of nature that *never* change?

Why is the universe so orderly, so reliable?

Scientists can't explain this!!!

Big Bang Theory?

Consider what might happen if a tornado came through a junk yard and tore through scrap metal; would it leave behind a nice new Mercedes car with the engine running and no parts left around?

Naturally not.

The human brain...

simultaneously processes an amazing amount of information. Your brain takes in all the colors and objects you see, the temperature around you, the pressure of your feet against the floor, the sounds around you, the dryness of your mouth,.

Your brain holds and processes all your emotions, thoughts and memories. At the same time your brain keeps track of the ongoing functions of your body like your breathing pattern, eyelid movement, hunger and movement of the muscles in your hands

How convinced you are about Allah's existence defines your faith.

Your faith drives your actions in private and public.

“Our Lord, You did not create this for nothing. Glory be to You! So guard us from the punishment of the Fire.”

(Quran 3:191)

People of understanding see the signs of Allah and try to comprehend His eternal knowledge, power and art by remembering and reflecting on them, for God's knowledge is limitless, and His act of creating flawless.

For people of understanding, everything around them is a sign of His creation.
